**NATIONAL
WORKSHOP**

on
**Emerging Trends of
Interdisciplinary Approach in
Research and Statistics**

**21st-27th
March
2020**

ORGANIZED BY:
Department of Lifelong Learning,
University of Rajasthan, Jaipur-302004

About workshop

Interdisciplinary knowledge sharing has been the latest trend in disseminating the knowledge and information among the people of different sectors these days. On the very similar lines research methodologies and data analysis is also taking its shape from one field of education to the other field of education. These days information, technologies, tools, concepts and theories and research designs from one knowledge field is being implemented and experimented in another system of knowledge subject field. Thereby, it is the need of hour to enrich ourselves from the basics of research and statistics to understand the complexities of multidisciplinary approach and demand of the current scenario.

Objectives

1. To develop a basic understanding of research and statistics
2. To develop an awareness regarding various research methodologies and its usage in different field of education
3. To enrich the audience with the data types, its classification, data generation and accordingly the statistical analysis techniques.
4. To develop an understating and implication of Univariate, Bivariate and Multivariate statistical techniques with SPSS.

5. To develop an insight of multidisciplinary approach of research and statistics.

Program content

1. Basics of research, types of research, Methods of research
2. Research tools, Research Design, Meta analysis and Review Studies
3. Hypothesis, types of hypothesis and hypothesis testing.
4. Basics of statistics: parameters, population, sample and sampling methods
5. Data Types (parametric, non parametric, qualitative, quantitative and different scales of data)
6. Univariate, Bivariate and Multivariate statistical techniques applied in data analysis.
7. Data mining with SPSS latest version software.

Subject fields

- Pure sciences
- Humanities
- Social Sciences
- Arts

- Commerce
- Allied Sciences

Pedagogy

Besides lectures and discussion, the participants will get handouts of lecture and hand on experience of applying SPSS software for data analysis.
